PACIFIC GARAGE AND AUTO CO.

SOLE AGENTS IN B. C. FOR

Peerless and Mitchell Motor Cars

The **PEERLESS** is all that the name implies-unsurpassed and unsurpassable by any Automo' in the world. The very limit in Automobile e' lence. The last thing in Automobile construction.

The Mitchell

A car that compares favorably with many others selling at much bigger prices. This car is designed for power and strength. It has all the speed you will want, but durability is the aim of its manufacturers. Everything about the MITCHELL proves this. But the proof of the pudding is in the eating. Ask about its record. Ride in the car itself and form your own opinion.

Randolph Motor Truck

The highest class and most serviceable Commercial Motor Vehicle in the market.

NOTE: We expect to occupy our new premises on Granville street in the course of a few weeks; we will then be in a position to accommodate 50 or 60 cars, in a high-class building, suitably heated and affording first-class storage. We make a specialty of repair work, and our mechanics are **thoroughly trained and experienced Automobile Mechanics.** We are, in the meantime, attending to our clients in our temporary premises, corner Pacific and Granville Streets.

THE BUSY MAN who wishes to keep his health, invigorate his business acumen, improve digestion, cure his troubles, and become a better business man and family man, should take a course of the DORCHESTER SYSTEM of Physical Culture, which does not waste a busy man's time.

Results Guaranteed

Ladies desiring health, grace, and removal of those troublesome complaints should also try the

Dorchester System of PHYSICAL CULTURE

It has never yet failed in either curing ailments or developing the physique as no other system does.

(F. E. Dorchester is known as America's leading authority. His system is known in the Yukon, all over Canada, U.S.A., Mexico, Cuba, Great Britain, etc.) This system is not pretty and useless exercises, but it is the **secret of body building.** Send, write or call for folders and testimonials.

HON. F. W. G. HAULTAIN says: "Have improved in health and strength permanently; results are astonishing."

JOHN D. MARSH (American Marathon record holder), says: "Your system is splendid; others should train as you advise."

J. HUME McDONALD (challenges the world at his weight, at weight-lifting, wrestling, boxing, rowing and swimming) says: "I've tried many systems; yours is the best and cleverest I know."

Have opened a school for advanced pupils, for wrestling, boxing, weights, etc.

Enquire at office,

Vancouver Exhibition Association

The objects of the Association are for the good of our country and our people, to organize and conduct exhibitions for:

The promotion of practical and scientific husbandry in all its varying branches;

The improvement of the breed of horses, cattle, sheep and pigs, dogs, poultry and other farm and domestic animals;

The development of the rich mineral, fishing and lumbering resources of the country.

The taxpayers of the City of Vancouver have voted $135,000 for the purpose of clearing the grounds and erecting buildings.

The land on which the improvements are being carried out is the property of the people, deeded by a paternal Government to the City Council in trust for the people.

The Provincial Government has voted $10,000 towards the prize list for the first exhibition, to be held from August 15th to August 20th, 1910.

Much money is needed to carry the Exhibition movement to a successful issue. As all the money voted by the City has to be expended upon the grounds and buildings, whilst that from the Government is for prizes alone, the public will, therefore, make the work of the committee easier and more pleasant by voluntary support. That voluntary support will best be shown by forwarding cheque to the manager. Sympathetic support can be given by advancing the claims of the Association to friends and inducing them to become members and work for the promotion of the interests of the movement. All can get down to work to have something to exhibit at Vancouver's first great Exhibition this summer.

Anyone may become a member of the Vancouver Exhibition Association for one year on payment of five dollars, or a member for life on payment of one hundred dollars. Life member's dues may be paid in four quarterly payments of twenty-five dollars each.

MERCHANTS' TRUST AND TRADING COMPANY, LTD.

SAVE MONEY where it makes most. How can we save money to the best advantage to ourselves? Everyone with common sense asks this question of themselves sometime. Now, in Vancouver, it is an old story, but just as true and more certain than ever, that Real Estate provides the surest and safest method of making money.

It requires money to make money, and many people find it difficult to get a start. To help those with small capital we have arranged to sell three large subdivisions in North Vancouver and Burnaby on terms that will bring them within reach of all.

Do you save $10 monthly? If so, how much interest do you get and what does your principal and interest amount to in one year?

You can save money with us by buying lots, and you can save at the rate of $5, $10, $15 and $20 monthly. At $5 monthly it would take one year to pay in $60. We believe that on all the lots purchased from us that you will be able to make 100 per cent. on the money paid in in one year. Sixty dollars profit on a lot in one year is not great, is it? Therefore our belief is reasonable.

No better security exists than Real Estate. It cannot be burned, like timber, fail like industrial companies, and fizzle out, like so many mining concerns. The land is there for all time. Look around you and see how many have made money out of Real Estate, and also look at those who have not. There are men in this city today who have been here over 20 years and are still poor. They could have bought lots on Hastings street for $400 which are now worth $100,000. But they didn't—they were pessimistic. Others did buy, and men who have been here only five years have become independent. And why? They had faith and courage to support the conviction driven home to their intelligence—that the future of this city was great and bright.

Make sure that you get value for your investment in Real Estate and profit is certain.

One other thing you want to guard against, and that is, lack of employment. Then also, there is illness. We have proposals to protect you against these misfortunes. So at least call and see us and talk it over. We guarantee to make profits for you and we honestly believe that our clients' profits will be as large as hitherto and that our dealings will be pleasant and business-like.

The poles will be tied by twine, as the judges or committee may decide. Exhibitor—H. F. Whitley, Seattle, Wash.

WE AIM to keep our stock fully up-to-date. We court investigation by the lovers of flowers, ornamental shrubbery, shade trees and all kinds of fruit trees. Our Rose stock, made up of choice varieties, is fine, as also our Sweet Pea stock. We certainly command the attention of the most aesthetic.

¶ A visit to our Greenhouses and Nursery, and more particularly our Landscape Gardens and Nursery, will do you good and please you very much; and assuredly you will do us good, since we know when you see for yourself you will patronize.

the cheque raiser. Protect your bank cheques and other valuable papers by using the

ZONO CHEQUE PROTECTOR

Latest, cheapest, best. Durable, simple and quick of operation; an invincible protection at nominal cost

While a majority of bank depositors in Canada and the States use some kind of protection, there is still an annual loss of $5,000,000 by raised cheques and other forgeries to business and professional men using imperfect protection or none at all. It may be your turn next. The law holds the bank responsible for your signature but not for a raised amount. That loss falls on you.

Here is a little machine costing but $15 (10 per cent. off for cash) that will insure your bank balance against the work of cheque raisers for all time.

LANGLEY PRAIRIE

IS recognized as the leading agricultural district tributary to Vancouver and Westminster markets. It is blessed with a fine climate, pure water and the productiveness of its soil is unsurpassed. It is just now being connected with these markets by good transportation facilities, such as the B. C. Electric, the V. W. and Y. Ry., and the Canadian Northern will be finished in a few years.

Now is the time to pick up a good investment before all this development is completed. We make a specialty of Langley farms, in both large and small tracts, and our automobile is always ready to take out interested parties to view our lands.

Diamond Quality Tells

MERIT IS APPRECIATED

THERE is one fact that we always present when speaking of our gems. It is the fact of their unimpeachable quality. There is much else to interest you. Take the matter of varied and superb settings; the variety in the size of the gems themselves; the thousand exquisitely enticing details that cluster about this question of gems. But the quality is the main thing, and that is why we emphasize it. We invite you to see for yourself.

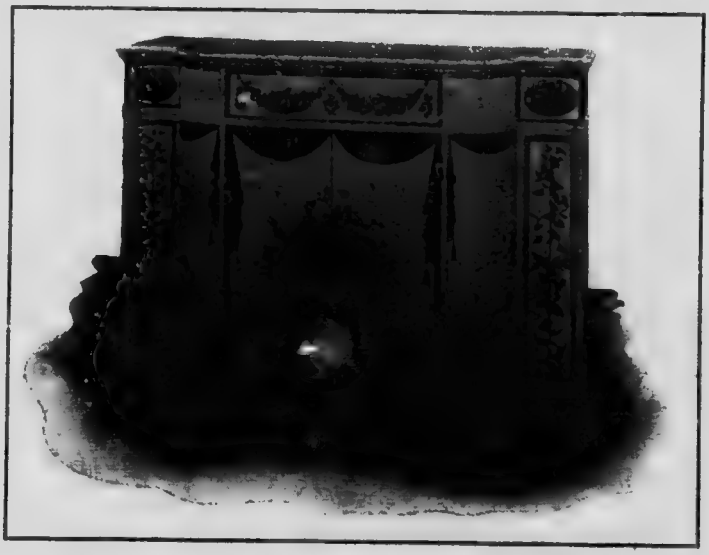
MODERN HOMES

Expert Advice on Interior Furnishing

THERE can be no real success in the treatment of a really "modern home" where good taste, comfort and utility are required, unless adequate study is made of the essentials to such idealism as the trained eye and cultured taste appreciate. There are principles which must be adhered to in a scheme of interior decoration equally as important as the principles which, when practically treated, build a bridge, a cathedral, or a



ship. To depart from such principles is fraught with disastrous results. There are men with varying gifts, such as oratory, music, art, etc. There are those who have gifts in the distribution of color and design to correct proportion---who can give poise in the treatment of "modern homes" from the "decorative and furnishing" points of view. These men are experts, and are known sometimes as
